

Converse Kids

“Growing up” and “Converse” have an unmistakable connection. For generations those indelible first moments of athletic achievement, whether they were on a court, in a back yard or at the neighborhood park, have been experienced in Converse shoes. Let Mom keep the baby booties; that first pair of serious sports shoes—the ones with the star and chevron or the Chuck Taylor ankle patch on them—were the best keepsake a kid could ever want. Kids today should have the same opportunity for that kind of experience, so we offer them the chance to get an early start. Just like adult Converse shoes, but specifically designed for little feet—and big memories.
